UNITED STATES GOVERNMENT

Memorandum

: Bob Boyer

DATE: May 24, 1988

FROM : Jane Nielson (x4948) *JEN*

SUBJECT: Warehouse relief (slight, but soon to improve)

I feel the need to fondle a few rocks that are stored in the warehouse:

Collector: H.G. Wilshire, stored 2/85, pallet 2195 , boxes 110-115, inclusive;
and

Collector: J.E. Nielson, stored 12/86, pallet 2242, boxes 15 and 59.

I'd like these by the second week in June.

As you may have heard, Howard and I will be moving to Flagstaff on or around mid-June, 1989. We have arranged for storage and active work-storage space there for our samples. We will be moving the boxed stuff as soon as we can get that space assigned and set up. In the jockeying around for space in Buildings 7 and 8 in the past 5 years or so we lost quite a lot of our cabinets for active research/storage. If you hear of any metal cabinets of large capacity, which might be available, please let one of us know.

(I intend to return any samples extracted from your storage TO Flagstaff, not to you, you'll be glad to know!)
